Miss Spencer - EYFS Lead

22.11.24

Wow - what an exciting week we have had! Of course the highlight was our snow day on Tuesday! We had so much fun playing in the snow; making snowmen, snow soup and snow balls! In Reception, we started to think about the process of solids turning into liquids. We learnt that as the snow heats up, it melts and transitions into water. Alex said "when the sun comes it will melt!". Hopefully we will get some more snow soon for us all to enjoy!

We have also had our SEN reviews this week. I would like to thank all of our parents that attended. It is lovely to speak about the progress all of your children are making and think about how we can continue to support their journey at Rivelin.

### Maths in Reception

This week in Reception, we have been focusing on subitising. Subitising is the ability to look at a small set of objects and instantly know how many there are without counting them. The children enjoyed playing subitise Bingo!

We have been using these skills to see sub groups within larger sets - for example that four can be arranged with 2 blocks on top of another 2 blocks or as a line of 3 with 1 on top
