Internet Safety Day

Next week is Internet Safety Day. The children across the school will be learning how to stay safe whilst online. Please find more information about keeping children safe online in the special newsletter that Miss Smith, our head of Computing, has made.

School Council - Talk Assembly

This week in Talk assemblies we spoke about the importance of respecting and looking after playground equipment. The School Council have worked very hard along with leaders at the school to order some fantastic new equipment for the children to play with. Our assembly this week reminded children about looking after this equipment, sharing and how to tidy up the equipment at the end of lunch and playtimes.

Y4s make catapults!

To tie in with their history learning, the Y4s have been busy making Roman catapults this week. The children (and staff) needed to show great determination to make the catapults using lollipop sticks and rubber bands but they've done an amazing job!

EYFS - Mark making

Our amazing EYFS team have worked hard to provide fun and exciting ways to help children develop their mark making skills. The children have been using chalk on a board and even water and paint to practice these crucial early writing skills!
