Science Day

On Wednesday the children were using their core value of **curiosity** when they were immersed in a special Science Day. The children moved around different activities set up by teachers and did everything from deep sea yoga to animal adaptations to even testing whether paper would disintegrate in water! The children were so excited by this opportunity and seemed to thoroughly enjoy themselves!

Y6 Mock Sats

This week the Y6 children showed their **determination** core value when they completed some tricky mock SATS papers in class. Well done to each and every one of our Y6s for trying their very best in these important assessments!

Talk assembly - Ramadan

This week in our talk assemblies in KS1 were learning about the Islamic celebrations of Ramadan and Eid. We taught the children the reasons why some Muslims choose to fast during Ramadan and the big celebration that happens once Ramadan finishes (Eid). The children in KS2 will get this opportunity in talk assemblies next week.

Core Value of the week: Kindness

We had a whole host of core values being celebrated this week in Celebration Assembly. But one child that really shone particularly brightly was Reuben in Pipistrelles class. Reuben has been showing his core value of **kindness** in going above and beyond in helping children who are new to the school but have very little English. This is an amazing example of kindness, Reuben, and the whole school is very proud of you.
